

FACS Tutoring Program

Individualized Tutoring is a program offered for students who could benefit from additional instructional time. A tutor may be requested for any student whose parents and teachers agree that one-on-one personalized sessions are needed. On-campus tutoring or off-campus tutoring is available.

SPECIALIZED ONE-ON-ONE INSTRUCTION K-12

COST

Within the FACS Tutoring Program various payment options are proposed. Some free tutoring may be available from parents, teachers, and student volunteers. Teachers who choose to give up their planning periods to tutor students or who choose to meet students from 3:15-4:00 PM will be paid \$40.00 for 45 minutes. Honor students or highly recommended students are also available to tutor. Student tutors will receive \$15.00 for 45 minutes of tutoring should they desire remuneration. Off-campus tutors on the referral list may negotiate their fees.

CONVENIENT ON-CAMPUS TIMES

The FACS Tutoring Program is designed to provide convenient on-campus instruction. Times are available throughout the school day, as also after school services are available from 3:15-4:00 PM. Should on-campus tutoring not fit a family's schedule, the FACS Tutoring Program can recommend off-campus tutors.
